

Got Accuracy?

The accuracy you need, the quality you expect.

Introducing Howell's H9900 Series Indicators

Accurate engine readings are critical to optimum engine performance. Backed with over half a century of proven engineering expertise, Howell's new H9900 Series indicators feature an innovative open-architecture design with the same highly accurate results you have come to expect from us. Designed and manufactured with the end-user in mind, these versatile indicators allow for multiple applications with specific software configuration and dial face changes, making them economical to build and tailored to the customer's specific need.

- Lightweight, compact, easy to install
- TSO
- Programmable discrete output
- Digital bus output
- Provides modular expansion
- All basic engine parameters available

Accuracy Specifications

INSTRUMENT	Torque	NP	ITT	NG	OT	OP	FF
ACCURACY	±3 lb-ft	±2 RPM	±2 °C	±0.1 %	±2 °C	±1 psi	±1 pph
